Found insane by such a court the fendant would be sent to an asylum, it could be tried for murder at a ter date, if the state could prove covery of his sanity.

One other loophole of insanity, beind that of proving his clients insane the murder trial, will be open to r. Darrow. In case of their convictor he may ask for an insanity hear.

Mr. Darrow. In case of their conviction he may ask for an insanity hearing before the sentence of the court is carried out.

The theorists remembered Gene Geary when it came to discussing this, and they recounted how he had been sentenced to hang but had appealed for a hearing on his sanity, had been adjudged insane, and had been sent to Chester asylum. In some consistent licks.

The northwest has suddenly taken on importance for all three candidates. Davis, with about 147 electoral votes in the solid south seemingly tucked in his pecket and with claims of 183 as "sure" being made by his followers, can greatly ease his needs in the east by capturing a state here and there in the west. The total necessary for electoral college.

The northwest and keep Davis from getting to be the Republican fireworks there and it is on his force and personality that the Republicans bank greatly.

Davis himself will at least be a novelty to the people of open sections—
a Wall street attorney telling of his progressivism—and Charley Bryan undoubtedly will fit well in at least some for no one would have a majority in the electoral college.

producing goods should be matched with a method for selling them; and that capital turnover is insured only if merchandise turnover is completed.

And since merchandise movement is not actually completed until the consumer has the goods, salesmanship to holesalers and dealers is not enough. The product must be sold to consumers, and the most economical means a manufacturer can employ to sell the consumer is advertising.

It is important that merchandising and production plans be made simultaneously. Advertising, which is a part of merchandising, should be planned early in production tactics. Advertising counsel should be retained that can think and work a business problem through to its conclusion.

Ovid Lemien, taxicab owner, cocked a weather eye at the beavens shortly before 10 o'clock last night, opined a storm was about to start, and, being of a cautious nature, slowed down his bar in which he was carrying Herman Becker of 4128 Sheridan road.

"Step on it, kid," growled Mr. Becker, Lemien later explained, adding that he didn't do any such thing. At 28th and State streets, Mr. Becker feaned forward with a shiny automatic, fired playfully over Lemien's head and said, "Step on it, kid." Lemien did.

At State and Van Buren, Mr. Becker began to announce his arrival in the hoop with more shots. Mr. Lemien hurried on. At State and Madison Mr. Lemien's wild eye saw Policeman William Ahern of the traffic squad. He hearly ran over Ahern just as Mr. Becker fired his last salute. Mr. Becker rested during the night at the city hostiery. He'll meet the judge this morning.

Old-timer.

I have had those methods all combined
in a product I call my Hair Youth, It is
highly concentrated. I apply it with an
yey-dropper directly to the scalp. There is
need of treating the hair itself.

This Hair Youth combats the harddoes what proper cultivation does for
gardens.

To that I owe my beautiful hair. And
countless women who now follow my methods owe to Hair Youth the luxuriant hair
one. Those results can come to men
as well as women, and I urge you to attain them.

He said he would not say anything so absurd as that one party in the con-flict consisted of all religious and moral men and that the other party was composed of irreligious and im-moral men. The question was "where is the truth?" in this conflict between talists and modernists, and fundamentalists and modernists, and the Rev. Mr. Major answered his own query by saying: "Truth plainly is not on the fundamental side, a body of people standing for the inviolability of people standing for the inviolatinty of the Holy Scripture, denying the fact of physical evolution and resolved to drive from the pulpit, even from the professor's chair, those who are op-posed to them. A Distinctive Crepe Model for the Small Girl

Corinne Lowe

NEW YORK.—[Special Correspond-nce.]—She hoops to conquer—the eroine of today's illustration. Quite apparently her most signal victory is over the kingdom of dress, for at the same time that she clings to childish things with one hand she dons ma-ture things with the other. In witness thereof behold the design of this little crepe party frock with its adult

touches of the mode.

The frock is in crepe de chine and, although it is indicated in yellow, it may be carried out in powder blue, green, or rose tint. Also, of course, in white. Whatever its color, it retains always the original shaping of the bodice which dips into a V at each side from a straight line across front and back. This downward movement of the upper section demonstrates more forcibly the smartness of those more forcibly the smartness of those side-plaits contrasting with plain back and front. Also it gives better accommodation to the belt of self-material which, running through both sides, is tied at the right in a graceful loop. Plaited ruffles finish the short sleeves and about the neck a band of embroidery executed in green and organs is averaged by a string self-material contrast is a string self-material contrast in a string self-material contrast is a string self-material contrast in a string self-material contrast is a string self-material contrast in and orange is extended into a strip

July. September. December, sible to raise a big crop. Improvement is reported in many sections but the crop on the whole should be tasseled at this time, which is not the case. There will probably be less commercial corn raised this year than for many years with a liberal abandonment of acreage.

Speculation in corn is heavy, business last week aggregating 148,323,000 bu, compared with 92,772,000 bu the previous week, making the best aggregate of the year. Corn specialists who sold December short because the price was the highest known in years at this season outside the war period have generally accepted their losses. Several of the largest holders of July corn have unloaded and there is still a fair sized holding.

Advance prices has brought out more cash corn, with primary receipts of 3,325,000 bu, the smallest at this time in five years or more. Despite the advance high prices are expected for corn.

Saleswomen.
ATTRACTIVE AND DIGNIFIED SALES WORK We have an exceptional sales plan to offer women who desire to sell real estate. We have women in this organization who are becoming financially independent and who find this work very pleasant.

To those who have had no real cetate experience we offer a course in training which will qualify them to make sales in a short length of time. We have subdivisions in the Niles Center district, in North Edgewater, and along the North Shore. Our real estate sales record in the past few months places us in the front rank of Chicago subdividers. Transportation is furnished, but to those who have automobiles we will offer a special arrangement.

Our fall rental list ready Aur. 1. mailed upon request.

Here are some facts well to know:
In the first place the co-operative plan of building has come to stay. Through it you will have better apartment in which to live and save slow over present rent costs.
Furthermore, in "Through over present rent costs."
7 room apartment rentile of \$250 per month will cost \$80 per month.
A 6 room \$200 per month apartment \$70 per month.
A 5 room \$160 apartment \$55.
A 4 room \$160 "Partment \$35.
In the interim you will pay 40% less per month for these apartments than the regular rent, including your prepayments on the seven year loan. This will give you a cash equity at the end of the loan period of one and one-half times the cost of your stock plus the increase in property value. On this security your bank should loan you, provided you were in need of it, more cash than the original equity cost.
Now is the time to make your choice. They will be ready for occupancy by Oct. 1.
An agent is on the ground at all times, and will gladly show prospective purchasers through the apartments.

TO RENT-OFFICES AND SHOPS TRIBUNE TOWER will be occupied before May 1, 1925. Reserve Your

Space NOW! The skeleton of Tribune Tower is already high above Michigan-blvd. In two months it will be complete-456 feet highrising far above all sur-

rounding buildings. Its graceful, soaring lines will thereafter be clothed with Indiana limestone in variegated tones. The interior will be made beautiful with marble from Tennessee and from Italy, with English oak, Mexiican mahogany and black walnut, with hand forged iron work and solid statuary bronze.

Chicago business men may then have office space such as they have never had before.

They may have offices in a structure internationally recognized as one of the architectural gems of the world - the crowning achievement in skyscraper construction-a structure built with ambition to make every interior detail worthy of its exterior beauty - a structure equipped with every comfort and convenience made possible by modern science and engineering.

No tenant will have an inferior office in Tribune Tower. Eleven floors only (13 to 23) are being leased the remainder of the lower floors being used by The Tribune itself. Every office has a superb outlook over lake or loop. Therefore, the policy has been adopted of one rate to all tenants. Remember, Tribune Tower will be ready for occupancy in April, 1925. Reserve YOUR space NOW! The Tribune Company.
